The Complete Program of Defense Procurement Management

Ref: 20221808_142207 **Date:** 27 **Location:** Toronto (Canada) **Fees:** 20100 GBP

Why This Course

Defense procurement requires precision, strategic foresight, and strict adherence to regulations. This intensive 4-week program equips professionals with the knowledge and tools to manage complex defense acquisitions from planning to execution. Participants will gain hands-on insights into best practices, risk management, and innovative procurement strategies essential for successful military contracting.

What You'll Learn and Practice

By participating in this program, you will:

- Master the full defense procurement lifecycle, from requirements definition to contract closeout.
- Apply procurement policies, legal frameworks, and ethical standards in defense acquisitions.
- Develop effective supplier selection, negotiation, and contract management strategies.
- Implement risk management plans and mitigation techniques for defense contracts.
- Utilize modern procurement tools, data analytics, and emerging technologies.
- Explore sustainable, ethical, and innovative practices in defense acquisition.

Program Flow

Days 1-2: Introduction to Defense Procurement

- Overview of the defense procurement lifecycle
- Key stakeholders and their roles
- Legal and regulatory framework
- Ethical considerations in defense acquisitions

Days 3-4: Strategic Procurement Planning

- Incentive and award-fee contracts
- Indefinite delivery/indefinite quantity IDIQ contracts
- International contracting considerations

Days 9-10: Risk Management in Defense Procurement

- Identifying and assessing procurement risks
- Risk mitigation strategies
- Performance security and warranties
- Dispute resolution mechanisms

Days 11-12: Contract Administration and Management

- Monitoring contract performance
- Managing contract modifications and changes
- Quality assurance and acceptance procedures
- Subcontract management

Days 13-14: Financial Management in Defense Procurement

- Cost and price analysis techniques
- Progress and performance-based payments
- Foreign Military Sales FMS financial management
- Auditing and financial reporting

Days 15-16: Technology and Innovation in Procurement

- E-procurement systems and tools
- Data analytics for procurement decision-making
- Blockchain applications in defense contracting
- Cybersecurity considerations in procurement

Days 17-18: Sustainable and Ethical Procurement

- Green procurement practices
- Social responsibility in defense contracting
- Anti-corruption measures and compliance
- Supplier diversity and small business programs

Days 19-20: Advanced Topics and Emerging Trends

- Agile acquisition methods
- Public-private partnerships in defense procurement
- International defense cooperation and joint procurement
- Future trends and challenges in defense acquisition

Training Methodology

This program blends theory and practical exercises to ensure participants can immediately apply what they learn:

- Case studies of real-world defense procurement projects
- Hands-on workshops for RFP development, supplier evaluation, and contract negotiation
- Scenario-based exercises for risk management and compliance
- Group discussions and collaborative problem-solving

Beyond the Course

Participants will leave prepared to:

- Develop a comprehensive procurement strategy for major defense acquisitions.
- Design and implement risk management and mitigation plans.
- Evaluate and select suppliers effectively while ensuring compliance.
- Implement performance-based contract management systems.
- Apply innovative tools and best practices to optimize defense procurement outcomes.
