Day 3: Transportation and Distribution Logistics

- Transportation modes and selection criteria
- Distribution network design and optimization
- Warehouse management and layout planning
- Last-mile delivery challenges and solutions

Day 4: Technology in Purchase Logistics

- E-procurement systems and digital platforms
- Supply chain visibility and tracking technologies
- Big data and analytics in logistics decision-making
- Emerging technologies: AI, IoT, and blockchain in logistics

Day 5: Global Logistics and Risk Management

- International procurement and global sourcing strategies
- Managing customs and trade compliance
- Supply chain risk assessment and mitigation
- Sustainable and green logistics practices

Individual Impact

Participants will leave the course with:

- The ability to design a strategic procurement plan tailored to their organization.
- Enhanced skills in inventory optimization and demand planning.
- Practical tools for improving distribution efficiency and warehouse operations.
- Strategies to identify, assess, and mitigate supply chain risks.

Organizational Impact

Organizations will benefit from:

- More efficient and cost-effective procurement processes.
- Improved inventory control and reduced stockouts or excess.
- Optimized transportation and distribution networks.
- Greater resilience against global logistics challenges and supply chain disruptions.

Training Methodology

- Case studies and real-world supply chain scenarios
- Hands-on exercises in procurement planning and inventory modeling
- Group discussions and peer learning
- Interactive workshops on technology-enabled logistics solutions

Beyond the Course

By the end of the five days, participants will be prepared to:

- Implement advanced supply chain strategies that reduce costs and improve efficiency.
- Leverage technology and analytics for smarter logistics decisions.
- Develop robust inventory and distribution systems aligned with business goals.
- Strengthen organizational resilience through effective risk management in the supply chain.
