

Advanced Asset and Liability Management: Strategic Mastery

2026 000000 20 - 16
Amsterdam (Netherlands)

UK Traininig

PARTNER

Day 3: Sophisticated Financial Modeling for ALM

- Advanced balance sheet and cash flow modeling
- Dynamic scenario analysis and stress testing
- Funds transfer pricing methodologies
- Practical exercises in ALM modeling

Day 4: Regulatory Compliance and Capital Management

- Basel III requirements and implications for ALM
- Liquidity Coverage Ratio LCR and Net Stable Funding Ratio NSFR
- Capital adequacy strategies and regulatory reporting
- Aligning ALM practices with compliance mandates

Day 5: ALM Implementation and Best Practices

- ALM systems, technology tools, and implementation strategies
- Effective ALCO operations and decision-making
- ALM reporting, communication, and stakeholder engagement
- Case studies highlighting ALM excellence

Individual Impact

Participants will leave this program with:

- Skills to design and implement sophisticated ALM strategies.
- Enhanced capabilities in measuring and managing financial risks.
- Knowledge to align ALM with regulatory and governance frameworks.
- Practical expertise in advanced financial modeling for decision-making.

Organizational Impact

Organizations will benefit from:

- Stronger alignment between ALM practices and strategic objectives.
- Improved risk management across interest rate, liquidity, credit, and market exposures.
- Enhanced compliance with regulatory requirements and reporting standards.
- Teams equipped to apply advanced modeling and analytical tools for better financial outcomes.

A graphic of a chessboard with several chess pieces (a king, a queen, and a pawn) in the foreground. The board is white and black, and the pieces are gold and silver. In the background, there are concentric circles radiating from the center.
